DETAILED ACTION

Election/Restriction

1. Restriction is required under 35 U.S.C. § 121 and § 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 C.F.R. § 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.
4. Group I is, claims 1-5, 10, and 12, drawn to a high tensile strength hot-rolled steel sheet composition.
5. Group II is, claims 6-9, 11, and 13, drawn to a method for producing a high tensile strength hot-rolled steel sheet, comprising steps of providing the steel composition, heating, rough-rolling, finish-rolling, cooling, and coiling.
6. The inventions listed as Group I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1 is obvious in view of JP 2000-54071 in search report accordingly the special technical features linking the two groups does not provide a contribution over the prior art and no single inventive concept exists.

7. A telephone call was made to Mr. T. Daniel Christenbury on July 9, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

Applicant is reminded that when amendment and/or revision is required, applicant should therefore specifically point out the support for any amendments made to the disclosure. See 37 C.F.R. § 1.121.
